## SAVAGE PIRANHA LIVES UP TO ITS REPUTATION

The Savage Piranha is living up to its reputation as a boat with a big bite, perfect for adventurous fishermen!

Available in two variations; the side console and centre console, the 495 Piranha is built on Savage's unique Maximum Ride Hull which provides efficient 'hole shot' performance, a smooth ride on the plane and improved stability when at rest.

This model isn't just about looks with Savage's rolled side deck design; a 2.05m wide beam and a deep freeboard allows the 495 Piranha to venture out on fishing adventures with ease.

National Accounts Manager Cameron Wood said the 495 Piranha lives up to its 'Pretty Smooth' reputation.

"At 5.14 meters, the 495 Piranha carries up to 5 people and is rated to a 90HP engine which and can take enthusiastic fishermen anywhere they want to go.

"With an incredible amount of storage space in side pockets and underfloor, there really is no escaping the 495 Piranha," he said.

The 495 Piranha is packed with features including 2 rod holders, plumbed live bait tank, 70 litre underfloor fuel tank, four seat positions and front casting platform.

This sturdy, high-sided fishing boat provides plenty of protection in rougher waters and delivers on the safety standards people have come to expect from Australia's oldest name in aluminium boats.

Fishermen can customise their Piranha with a wide variety of options such as two-tone paint, rear folding lounge, transom door, bow mount plate or a Mark 5X Fishfinder.

To find out more about the boat with the bite contact your local Savage dealer or visit the Savage website [www.savageboats.com.au](http://www.savageboats.com.au)
